

The Vitec Group plc Colorama Rolleasy

Colorama Rolleasy

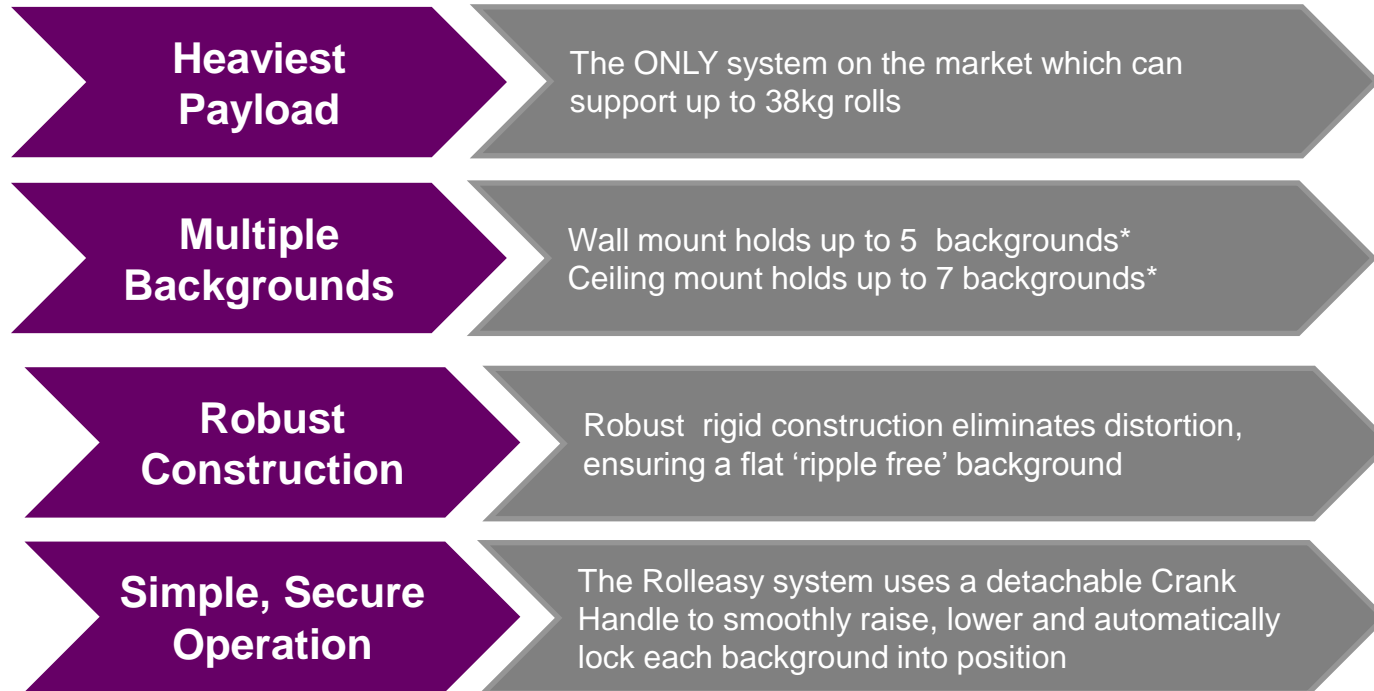

The Colorama Rolleasy is an exceptionally robust, professional studio background support system which can be **wall or ceiling mounted**.

- > Can be configured to support 2.75m or 3.55m wide rolls
- > The ONLY system on the market to support the weight of 3.55m x 30m Paper Rolls and 3.50m x 12m Vinyl Rolls
- > NO CHAINS, NO SWINGING PARTS, NO OBSTRUCTIONS IN THE SHOOTING AREA
The Rolleasy system uses a detachable crank to smoothly raise and lower each background which is then automatically locked in position
- > The system is available as complete kits or as separate components to create a customised system.
- > The Rolleasy system allows you to use multiple Paper and/or Vinyl backgrounds at the same time. For example, the picture on the right demonstrates use of white and grey backgrounds.

The Rolleasy Components

<p>1</p> <p>Wall Brackets</p>  <p>Ceiling Brackets</p> 	<p>The Rolleasy system can be attached to the ceiling or wall*</p> <p>The Wall Brackets can hold up to 5 backgrounds</p> <p>The Ceiling Brackets can hold up to 7 backgrounds</p>	<p>5</p>  <p>Crank Handle</p>	<p>The crank handle attaches to the extension rod which connects it to the drive end to allow users to smoothly raise, lower and automatically lock each background into position</p>
<p>2</p>  <p>Drive End</p>	<p>The Drive End is a part of the Manual Supplementary Unit. The Extension Rod connects the Crank Handle to the Drive End. Together, this mechanism enables users to smoothly raise, lower and automatically lock each background into position</p>	<p>6</p>  <p>Pair of Stub Rollers</p>	<p>Stub rollers are inserted into the core of 2.72m Paper Rolls to enable them to be attached to the drive & idle end</p>
<p>3</p>  <p>Idle End</p>	<p>The Idle End is the other part of the Manual Supplementary Unit. It secures the roll into position</p>	<p>7</p>  <p>Paper Weight & Cutting Edge</p>	<p>This device is available in 2 sizes, 2.72m & 3.55m, it provides weight to hold paper in place. It is also a useful tool in providing a straight edge to cut off used paper, ready for the next shoot.</p>
<p>4</p>  <p>Extension Rod</p>	<p>The Extension Rod acts as an extension to the crank handle connecting it to the drive end. The detachable extension rod allows users to work at a comfortable height</p>	<p>8</p>  <p>Full Length Roller</p>	<p>Full length rollers are available in widths of 2.75m & 3.55m, they allow 2.75m & 3.50m Vinyl rolls and 3.55m Paper rolls to be connected to the Rolleasy system. A full length 3.55m roller can be inserted through the core of 3.55m Paper Rolls. The 2.75m Vinyl Rolls and 3.50m Vinyl Rolls, are directly attached to a 2.75m or 3.55 full length roller.</p>

*The maximum payload for the system is 38kg
